Store Your World in Ours®

Does your mobile phone world consist of talking at will, grooving to tunes, checking out the latest video, or taking photos—all while you're out and about? Fit it all into your phone with a SanDisk memory card—the easy solution for taking your favorite tunes, cool videos, and great photos with you, wherever you go. Choose a SanDisk card that fits your phone's removable memory card slot, and in addition to adding more memory you also get the reliability that comes from the world leader in flash memory cards. More memory, more fun, more of your world.

SanDisk miniSD™

The SanDisk miniSD memory card offers all the benefits of a standard SD™ card, but in a more compact size specifically designed for mobile phones. The miniSD memory card format is the most commonly used by mobile phone manufacturers. It's versatile, fitting into a wide range of mobile phones as well as any SD card-compatible device when used with an adapter (included). Capacities: 256MB, 512MB; 1GB, 2GB*

*1 megabyte (MB) = 1 million bytes; 1 gigabyte (GB) = 1 billion bytes
Some of the listed capacity is used for formatting and other functions, and thus is not available for data storage.

SanDisk microSD™ / TransFlash™

The SanDisk microSD (TransFlash) removable memory card is the newest standard in SD flash memory designed for the latest generation of small, ultra-thin mobile phones. Like the miniSD, the microSD card may be used in any SD-compatible device with the use of an adapter (included). Capacities: 128MB, 256MB, 512MB; 1GB, 2GB.

SanDisk Memory Stick PRO Duo™

The SanDisk Memory Stick PRO Duo card features fast data transfer and real time recording of high-resolution images and video, making it ideal for multimedia applications on Memory Stick™-compatible mobile phones. The Memory Stick PRO Duo card includes a Memory Stick Duo™ adapter. Capacities: 256MB, 512MB; 1GB, 2GB, 4GB.

Approximate values based on the mobile phone model, file resolution and compression.

	MUSIC ¹	or VIDEOS ²	or PHOTOS ³
2 GB	480 songs	640 minutes	4800 images
1 GB	240 songs	320 minutes	2400 images
512MB	120 songs	160 minutes	1200 images

¹ 1 song = 4 minutes
music compressed at 128kb/
s x 60 = 7680 kb/minute

² MPEG-4 QCIF
1 minute dip = 384kb/
s x 60 seconds = 23040 kb
per minute

³ 2MP camera
1600 x 1200 with 5:1
compression = 384 kb per image
8 bits per pixel

SanDisk MMCmobile™

The SanDisk MMCmobile card is an enhanced RS-MMC memory card offering higher performance data transfers and also supports dual-voltage operation: low-voltage and standard voltage. The MMCmobile card is compatible with all RS-MMC memory card slots as well as standard MMC slots when used with an adapter (included). Capacities: 256MB, 512MB; 1GB.

SanDisk Memory Stick Micro™ (M2™)

The SanDisk Memory Stick Micro (M2) card provides removable high-capacity storage for Sony Ericsson's newest ultra-thin mobile phones. The new M2 card includes an adapter so that you can use the card in any device that takes a Memory Stick PRO Duo card. Capacities: 512MB; 1GB, 2GB (available Q4 '06).
